Yes, we will be sending the San Juan NOx baseline report and also the San Juan SNCR Optimization Protocol. Both should be to you within the week.

**Subject:** RE: Let's cancel the call today

It's possible we won't need a call on San Juan after looking at the information. Plus I think we are still anticipating the NOx baseline report sometime soon, is that right?

I would say no call this week, and we will get back to you next week if we need to have one.

Thanks

Shaun Burke

Ok. I just sent you the RATA and process information about 30 seconds ago. Please confirm that you received the info.

Will you get back to me about available dates and times for the conference call?

Thanks. Phil.

Phil and Seema,

Harish and I spoke and we think it would be better to have this call after we get Essroc's RATA and baseline data for San Juan. We expect that we will learn more from those reports and can spend our time more wisely then.

Phil, please confirm that you received this email.

Thanks

Shaun
